MAXAGROW® - Brand For All of Your Agro- Textile Needs

With assured quality right from the first stage of manufacturing – from utilization of Gravimetric mixers to customization at all stage – from weaving, to designing, to packaging, we can cater to professionals as well as retail distributors. MAXAGROW® is your choice of products for applications requiring the use of Agro-Textiles. Under our brand, we currently have a variety of products as listed below:

Ground Cover

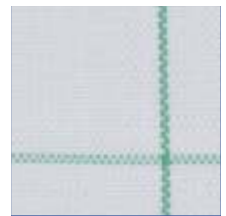

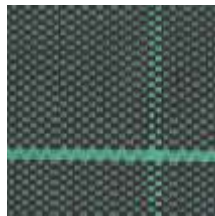

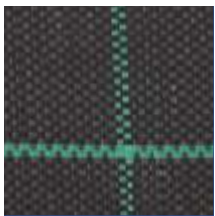

MAXAGROW® GCS is a woven ground cover series of products produced on wider width Sulzer looms.

Standard Width: 1,00 – 1,05 – 1,65 – 2,10 – 3,30 – 4,20 – 5,20 meters

Standard Roll Length: 100 meters

Available color: Black, Green, Brown, White

Any other width, length and color can be customized upon prior request.

Capillary Matting

MAXAGROW® NP is a composite with recycled fiber bed along with MAXAGROW® GCS for retaining the optimum amount of water as may be requested by the customer. The water retention requirement varies across different plants and different growing conditions. Adding this product in our product basket is a green initiative taken by SAPPL to save on excess use of water during irrigation. Also, the choice of recycled fiber has been done keeping in mind the cost of effectiveness which needs to be taken care for making MAXAGROW® NP affordable to the common growers and horticulturists

Standard Width: 1,00 – 2,00 – 3,65 – 4,20 meters

Standard Roll Length: 100 meters

Available Color: Black with stripes or squares, White with stripes or squares

Any other width, length and color can also be customized upon prior request.
